# what would you do?

It's your NHS. Have your say.

## Share your views on the future of the NHS

The Government is investing an extra £20bn a year in the NHS until 2023. Now it's your chance to have your say on how money should be spent on services in Wiltshire.

We want to know how you think the NHS can help people live healthier lives, what would make local services better, and how care for people with long term conditions could be improved.

Take part in our **What would you do?** survey [here](#) and share your views today.

You can also tell us more about how care could be improved for people with conditions that health and care providers have made a priority.

If you have experience of cancer, heart and lung diseases, mental health,

dementia, learning disability, autism, or a long term condition such as diabetes or arthritis, please [click here](#) to tell us what you think. All responses are anonymous.

Find out more on our [website](#).

## Last chance to apply for community project cash

We've launched a Community Cash Fund to help local health and wellbeing projects get off the ground.

You can apply for up to £2,000 to start up a project in your community!

The scheme will help us gather more feedback on health and social care services from people we might not otherwise hear from. Find out more on our [website](#).

Applications must be in by **5pm on Friday 29 March**.

## Have your say on Salisbury Hospital project

The Health, Education and Technology (HEAT) Project Salisbury is asking for your views on how the Salisbury District Hospital site could be revamped, developing services and amenities and integrating with other functions such as education and technology. You can also help decide on the project name!

Find out more on the [HEAT website](#).
